

Get an instant incentive in three simple steps.

INSTANT INCENTIVES AVAILABLE FOR HIGH-EFFICIENCY HVAC+ EQUIPMENT – NO WAITING, NO PAPERWORK!

Save up to \$1,100 per unit on high-efficiency HVAC+ equipment.

Rocky Mountain Power is partnering with distributors to offer savings on high-efficiency HVAC+ equipment installed in the Rocky Mountain Power Utah service area. Using energy-efficient equipment can lower energy and water use. Start saving now!

How to Participate:

1. Select eligible equipment

Work with your distributor to identify the qualifying equipment that best meets your needs.

2. Complete your purchase

Confirm that your equipment will be installed at a facility that receives electric service from Rocky Mountain Power.

3. Receive your instant incentive

The incentive will be applied as a discount on your invoice or a credit to your account. Please reach out to your distributor for more information.

Eligibility Requirements:

Non-residential customers of Rocky Mountain Power are eligible to receive instant incentives. If the project is a [multifamily project](#) or is participating in the [Whole Building new construction and major renovation program](#), it does not qualify for midstream incentives. Equipment must be installed in a non-residential location that receives electric service from Rocky Mountain Power.

Participating Distributors:

Find an approved distributor using our [Find a Contractor](#) tool.

Qualifying Equipment:

For the full list of eligible equipment, visit [Rocky Mountain Power's website](#).
